

INTRODUCTION TO MAPLE STANDARDS

This class will be presented by Ohio Maple Producers Association (OMPA) through a grant by the North American Maple Syrup Council. The goal is to bring this class to within an hour drive of everyone in Ohio. This is the next class that the OMPA will be presenting to five districts throughout the state of Ohio to promote maple syrup grading standards. The instructor will be Jake Nicholson, Ohio State Maple Specialist. This will be a hands on experience using tools to measure color, clarity and density and what it takes to make a Grade A Syrup. The class will taste and compare flavors of Grade A syrup, as well as off flavored syrups.

With your \$20 per person registration fee, you will receive a Color Grading Kit and a Hydrometer to take home with you. This is a great workshop for the Beginner, or a refresher course for the more experienced producer.

Date: May 27, 2026 from 6:00pm-8:00pm.

Location: VEGA Americas Inc.

**Address: 3877 Mason Research Pkwy.
Mason, OH 45036**
